

COVERT LTE COMMUNICATION SOLUTIONS FROM SAVOX

SAVOX

From the most sophisticated, wireless solution for “deep” covert operations, to simple, cost effective products for light surveillance duties, Savox has a range of lightweight, unobtrusive accessories that allow you to communicate discreetly in all situations using your mobile phone.

Industries/Applications

- Deep Covert Operations
- Surveillance and Anti-Terror
- VIP and Diplomatic Protection
- Police and Law Enforcement
- Commercial and Store Security

Benefits

- Provides totally discreet communication using your mobile phone
- Mobile phones are easier to hide than radios
- Wireless solutions for maximum freedom
- Interference-free products provide clear and secure communications in EMF prone environments
- “Tones” options allow communication even when speech is impossible
- Converts your existing mobile phone into a covert solution
- Works with most of the leading manufacturers mobile phone and POC apps.

SAVOX Covert LTE Solutions

Designed and manufactured in the USA.

SEP 100

A covert inductive neckloop/microphone system for use with wireless earpieces in a covert surveillance role.

SEP 110

A covert inductive neckloop/microphone system complete with remote barrel PTT for use with wireless earpieces in a covert surveillance role.

CLARITY INTERFERENCE-FREE SYSTEM

An interference-free covert neckloop/microphone system comprised of an inductive loop with microphone, wireless receiver module (with in-built PTT) and a disguised wireless car key fob PTT. For use with Savox RCR7 wireless earpieces. The system provides interference-free communications when used near power lines and other sources of interference like vehicles.

Wireless Earpieces

COVERT BASE UNIT *coming soon

A modular covert inductive system with in-line and wireless PTT. Inductive options of loop, brooch or flexible accessories. Various earpieces are available. Ideal for all covert surveillance roles. Also available with HR6 quick disconnect.

- Interference-free secure transmissions between loop and wireless earpiece to the Savox exclusive, inductive technology
- Factory programmable encrypted wireless two-button remote PTT with security tones/volume control options
- Factory programmable wireless earpiece
- Compatible with Android and iOS devices
- Compatible with all leading PTT applications

All wire kits are available as plug-in versions that provide the widest range of earpiece options.

SAVOX Covert Carrying Solutions
