NEXT-GENERATION VIDEO ANALYTICS

The Avigilon H5A camera line features our next-generation video analytics technology. Leverage the latest in AI-powered video analytics to detect and persistently track more objects - whether stationary or moving - with greater accuracy even in crowded scenes, detect unusual activity in a scene autonomously, apply facial recognition technology to alert of face watch list matches and maintain vigilance with pandemic response technology. These advanced capabilities help provide detailed information on what is happening on your site so you can detect potentially critical security events faster and take responsive action.
