TETRA RADIOS

MXP660

MXP660 multi-bearer portable TETRA radio

The MXP660 multi-bearer portable TETRA radio has built-in LTE and Wi-Fi, enabling auto switching for continuous TETRA usage via DIMETRA Connect. AI-trained noise suppression for clear communication. Plus, over-the-air programming via LTE, WiFi and TETRA.

Rugged and lightweight, the MXP660 is easy to carry and use with its T-bar style grip. It contains AI-trained noise suppression, so your users can be heard even in extreme noises. It can use built-in LTE and Wi-Fi and your DIMETRA Connect gateway to keep your users connected with their TETRA features outside of TETRA coverage. The MXP660 also helps reduce your total cost of ownership, with over-the-air programming via LTE, Wi-Fi or TETRA and the ability to reuse most of your MXP600 accessories.
